EVENT RUN SHEET

YOUR WEDDING EVENT RUN SHEET, AND HOW TO USE IT...

This is easy to use but I'll talk you through it anyway...

The first section is for you to fill in any contact information for both the Bridal party and your suppliers.

Next you can enter an overview of your timings i.e. 1800-1830 Speeches for example

Enter in your guest numbers and remember to detail how many children you have

Below all this is the running order, here you can add all of the details such as set up, decorations, specific instructions etc. Just delete any sections that are not relevant to you.

I have put a few prompts but don't be afraid to add as much detail as possible. It is better to have too much detail than not enough.

Hopefully that all makes sense but feel free to contact me if you have any problems or need help.
